## Profile

Front end developer student with many years in the service profession and design behind me. I have now settled down and look forward to new challenges and I am convinced that my skills and positive attitude are of great benefit in all professional roles.

I am ready to use my skills and my passion to help a business move forward. I have a positive attitude, the desire and motivation to learn new programs. Goal-oriented and committed to finding solutions to problems that arise.

## Education

### Fron End Developer, KYH, Stockholm

August 2022 — May 2024

Current, will graduate in May 2024

### Digital design, HKR, Kristianstad
